

## 2022 In-State Concept Overviews

### Feldy's Ice Cream

We all scream for ice cream! Feldy's Ice Cream is a mobile ice cream shop in a converted school bus serving South Dakota State University (SDSU) ice cream and other fun summer treats! Feldy's Ice Cream will satisfy the sweet tooth of many customers at Lake Poinsett and surrounding communities on hot summer days!

### Free Bird RC

Free Bird RC (FBRC) is a business that utilizes 3D printing technology to provide printing and rapid prototyping services to remote control (RC) vehicle hobbyists and businesses alike. Traditional accessories are expensive and often only fit select RC vehicles. There is also minimal differentiation of parts/accessories, with limited product lines available. Free Bird RC will remedy this problem by using 3D printing to make durable, low-cost accessories that fit a wide range of RC vehicles.

### Punch Out

My business idea is Punch Out Tool Company, which sells the Punch Out, a spring-loaded, hand-held punch specifically designed for working on haybines. The Punch Out is best suited for punching out broken sickle teeth on haybines, where it is hard to fit a hammer. It can be used around the farm and at home too. Just line up the punch with the bolt, pull back the handle, and let the spring do the work.

### Native Cleaners

My business idea is to create a native seed cleaner that will efficiently remove seeds from any chaff or debris that the seed is contained in on the plant. Currently, there are very few methods of efficiently cleaning native seeds that many pollinators and native mammals depend on. With the invention of this cleaner, it would allow these seeds to become more affordable for the conservationists to put into their seed mixes.

### VaCay Check-in

Do you ever go on vacation but have no one to look after your pets, mow your lawn, or get your mail? Now you can hire VaCay Check-In. VaCay Check-In will go to your home

up to three times a day to do services of your choice. VaCay Check-In will do anything from watering flowers to doing your pets chores. You will never have to worry about your home or pets while on vacation again!

### [Sleek Steel Buildings LLC](#)

Sleek Steel Buildings LLC (SSB) will build steel buildings, pole barns, and barndominiums. SSB's target market is people between the ages 25-65, who are in agriculture or need ample storage space. Company headquarters will be in Aberdeen, SD but will serve customers within a reasonable distance. SSB will open in June 2024 but will start lining up jobs in January. SSB is going into business because they see how far contractors are backed up.

### [Countryside Living](#)

Countryside Living is an assisted living facility for retired farmers and farmwives who would rather stay in the country than move to a facility in town. This will allow them to still do daily farm tasks and live their same country lives with the supervision of nurses and assistants.

### [2 Doors](#)

Lake Geneva, Wisconsin is home to popular, high-end tourist stays, activities, and attractions. Who better to cater to the floral and greenery décor and care for these resorts, hotels, and high-end golf courses other than 2 Doors. 2 Doors is a florist business created to cater to the needs of not only simple bouquet orders, but to the outdoor greenery care of the high-end attractions.

## **2022 Out-of-State Concept Overviews**

### [MatheX](#)

Which skills are more important than a basic understanding of mathematics? The app MatheX helps elementary school students to practice basic mathematical concepts optimally. Its speech-based training enables an exceptionally intuitive and motivating learning experience and advanced algorithms adapt the problems specifically to the

student - the better they get the harder the problems will become. MatheX has already been downloaded over 3000 times from more than 50 countries all around the world.

### [Kind Kibble](#)

KindKibble is a company targeting the overpopulation of invasive animal and plant species. We will use these underutilized organisms to produce nutritious pet food products for dogs and cats, as well as farm animal feed for livestock. Our healthful food products will be marketed towards livestock farmers and pet owners. KindKibble will create demand for invasive species, providing a sustainable way to combat invasive species' population growth according to the UN sustainable development goals.

### [Cultural Munch](#)

CulturalMunch offers a wide variety of subscription boxes filled with authentic snacks, jewelry, and trinkets. Our company believes in the power of education/entertainment to combat ignorance around the world. Thus far, we have targeted the subscription box and entertainment markets with a focus on young adults and families with children.

### [Opportunities for Girls](#)

High School Girls spend a lot of time reaching out to over 100 companies, job boards, and professors to find internships and research opportunities. There is no one single place to find opportunities. It takes a lot of time and effort to search and find opportunities. If girls can find internship/research opportunities, they can improve their chances of going to college, landing a good job or creating entrepreneurial opportunities for the next generation of girls.

### [Freshly Filtered](#)

What is in your water? Do you truly know what you are drinking every time you run to the refrigerator or tap? Well, as an individual who has faced health concerns my entire life it was imperative to face the facts and test my water. Many household water supplies are contaminated with high levels of micro plastics. Thus, I would like to patent and manufacture a filtering device to remove micro plastics from our water.

## [The Admont Library](#)

A current online antiquarian bookstore ([www.theadmontlibrary.com](http://www.theadmontlibrary.com)) and publisher of The Admont Abbey Magazine, the only magazine dedicated to booksellers and admirers of literature alike, The Admont Library seeks to establish an online archive. The Admont Archive looks to provide an enhanced reading experience, which proves all too lacking in today's literary market, to admirers of literature and struggling students alike through the combination of literature with visuals and audio.

## [SCHOOLPOOL APP](#)

SchoolPool is an app dedicated to setting up, searching, and managing private carpools to school and other activities practically and effectively. According to statistics, parents spend the equivalent of a part-time job managing their child's transportation logistics, and children sometimes miss out on important enrichment activities due to a lack of reliable transportation. This app will help ease this burden on parents and will also help with reducing traffic congestion.

## [Suwannee Distributions](#)

With the growing trend of small entrepreneurs across the world, the need for packaging and distributing their products has been growing ever since. Suwannee Distributions works with entrepreneurs to package their product and ship it locally (100 mile radius) for a set price based on the number of shipments and a set period of time. This gives entrepreneurs less stress so they can focus on other parts of their business while we handle the packaging/distribution.
