2. Picture →

3. Subheadline → *Other methods of erosion and sediment abatement aren't effective and are difficult to clean out. The D.I.P. Basket provides the most reliable results.*

2. Picture ←

5. Slogan ← **Introducing, the Drop Inlet Protection Basket**

4. Text ← **Reliable** – sediment control solution for most 2'x3' road drains.
Economical – welded angle iron and steel mesh for years of use.
Common size – basket fits into road drain frame and will sit beneath the grate.
Easy to use – uses high flow silt fence zip tied to basket for filter.
Reduces overflow – 2"x4" lumber fits in channel iron guides to deflect run off.
Easy to maintain – sediment can be removed with a flat bottom shovel, by removing the filter, or dumping the basket.
