Introducing, the Drop Inlet Protection Basket

- **Reliable** – sediment control solution for most 2'x3' road drains.
- **Economical** – welded angle iron and steel mesh for years of use.
- **Common size** – basket fits into road drain frame and will sit beneath the grate.
- **Easy to use** – uses high flow silt fence zip tied to basket for filter.
- **Reduces overflow** – 2"x4" lumber fits in channel iron guides to deflect run off.
- **Easy to maintain** – sediment can be removed with a flat bottom shovel, by removing the filter, or dumping the basket.
